THE

ESSEX NATURALIST:

BEING THE

Journal of the Essex Field Club,

EDITED BY

WILLIAM COLE, F.L.S., F.E.S.

Honorary Secretary.

VOLUME XII.

JANUARY, 1901—DECEMBER, 1902.

"*Men that undertake only one district are much more likely to advance natural knowledge than those that grasp at more than they can possibly be acquainted with. Every kingdom, every province, should have its own Monographer.*"—GILBERT WHITE, of Selborne.

"*Call things by their right names.*"—ROBERT HALL.

[*The authors alone are responsible for the statements and opinions contained in their respective papers.*]

PUBLISHED BY THE CLUB, AT THE ESSEX MUSEUM OF NATURAL HISTORY, STRATFORD, ESSEX.

1902.

"The course of Nature is the art of God."

YOUNG.

"Hear ye not the hum of mighty workings?"

KEATS.

"Lovely indeed the mimic works of art,
But Nature's works far lovelier."

COWPER.

"Nature hath made nothing so base, but can
Read some instruction to the wisest man."

ALEYN.

"If thy heart be right, then will every creature be to thee a mirror of life and a book of holy doctrine."

THOMAS A KEMPIS.

"O Nature! bare thy loving breast
And give thy child one hour of rest,
One little hour to lie unseen
Beneath thy scarf of leafy green."

OLIVER WENDELL HOLMES.

"He liked the well-wheel's creaking tongue—
He liked the thrush that stopped and sung—
He liked the drone of flies among
His netted peaches;
"He liked to watch the sunlight fall
Athwart his ivied orchard wall;
Or pause to catch the cuckoo's call
Beyond the beeches."

AUSTIN DOBSON.

ADVERTISEMENT.

The completion of our 12th Volume affords a convenient opportunity of giving a list of the dates of the publications of the Club, for the information of new Members and Librarians.

The Club was founded on January 10th, 1880, and its first publication was the *Inaugural Address* delivered by Mr. R. Meldola, on February 28th, 1880. This was published as a distinct pamphlet, and it also formed pp. 1-26 of Volume I. of *The Transaction of the Epping Forest and County of Essex Naturalists' Field Club*, of which Part I. appeared in September, 1880, and the following parts at irregular intervals. With Volume III. the shorter title of *The Transactions of the Essex Field Club* was adopted, in accordance with the change in the title of the Club. In the first three volumes, the *Transactions* and *Proceedings* had but one title-page, although with distinct pagination; but, in order to facilitate editing, it was resolved to separate them, and Volume IV. of the *Transactions* and Volume IV. of the *Proceedings* were so issued. In January, 1887, however, the publications were finally combined in *The Essex Naturalist*, of which the 12th Volume is now concluded. The volumes were annual up to 1894; now two years are included in each volume.

In future the *Essex Naturalist* will be issued at regular quarterly intervals, on or about the 20th of April, July, October, and January. The Council of the Club has decided to charge 5s. per part to non-members, but the journal will be sent free by post to Members. *Therefore those wishing to have the Essex Naturalist should become Members of the Club.*

The old series, therefore, consists of three volumes of *Transactions* and *Proceedings* combined, with single title-page for each volume, and one each of *Transactions* and *Proceedings* with separate title-pages, together with appendices. The parts were issued as follows, and the appendices indicated should be bound up with each volume :—

Vol. I. With *Proceedings* [*Title — Transactions of the Epping Forest and County of Essex Naturalists' Field Club.*]	President's Inaugural Address Part 1 (September, 1880) ,, 2 (December, 1880) ,, 3 (February, 1881) Title and Index—First List of Members and Rules.
Vol. II. With *Proceedings* [Same Title.]	Part 4 (June, 1881) ,, 5 (October, 1881) ,, 6 (July, 1882) Title and Index, Appendix and Revised Rules.
Vol. III. With *Proceedings.* [*Title — Trans. of the Essex Field Club.*] Price 16s.	Part 7 (June, 1883) With two Appendices. ,, 8 (April, 1884)
Vol. IV. *Transactions* only. Price 8s.	Part 1. Vol. IV. ('Trans.') (June, 1885) ,, 2. ,, ,, (Dec., 1886) Title and Contents.
Vol. IV. *Proceedings* only. [*Title—Proceedings of the Essex Field Club.*] Price 10s. 6d.	Part 1. Vol. IV. ('Proc.') (June, 1885) ,, 2. ,, ,, (Pub. Mar., 1892) With Appendices III. and IV. Title, Index, &c. Appendices I. and II.

Volume I. and II. can only be supplied with *Complete Sets, of which very few copies remain.*

The Club has also published three volumes of Special Memoirs, viz.: *Report on the East Anglian Earthquake of April, 22nd, 1884*, by Prof. Raphael Meldola, F.R.S., F.C.S., F.R.A.S., M.A.I., &c., and William White, F.E.S., Member of Geologists' Association; *The Birds of Essex*, by Miller Christy, F.L.S.; and *The Mammals, Reptiles & Fishes of Essex*, by Henry Laver, F.L.S., F.S.A., &c. *Vice-President.* And in connection with the Museums a series of *Handbooks* are in course of publication and will be continued from time to time as may be necessary.

All the publications are still obtainable, but some are rare, and those desiring complete sets must make early application for them.

W.C.

December, 1902.

INDEX TO VOLUME XII.

"Agricultural Geology, Elements of" (*review*), 240
Alteration of Rules, 258
Aminita citrina, a Fungus new to Britain, in Epping Forest, 129
Anent a Forest Lodge in 1444, 145
Annual Report of Council for 1900, 32; for 1901, 244
Aphodii in Epping Forest, 177
Arachnida; Spiders of Epping Forest, 181
Archæological Investigation, Local, Address on, 252
Arion ater, variety of, near Bures, 177
Ash-bark Beetle (*Hylesinus*), Mines of *(paper read)*, 50
AVERY, JOHN, Exhibits Water-colour drawings of Essex Churches, 43; reads paper on George Edwards, 255; Exhibits some Essex Tokens, 258

Bat, Long-eared, flying by day, 67
Batrachians, a "Happy Family" of, 69
Bearded Tit, specimens from Rickling Fen presented, 255
Beaver, Giant (*Trogontherium*) in Thames Valley, 243
Bigods, Lady Warwick's Technical School at, 152, 162
Biological and Pre-historic Archæological work in East Anglia, systematic, 159
"Birds, British," Harting's "Handbook" of (review), 65
Black-headed Galls, nesting in Essex, 68; Notes on, in 1901, 120
Blister-beetle (*Lytta vesicatoria*) near Colchester, 177
Boat, ancient, found about 1830 near Temple Mills, 180
Books presented to Club, 255
Boulder-clay, Manganese nodules in, 137; the matrix of, 243
BOULGER, G. S., Sea-side Plants, 125; Conducts meeting in Canvey Island, 149
Brightlingsea Harbour, Notes on a Small Shark seen in, 166
"British Birds," Harting's "Handbook" of (review), 65
British Association, Report of Club's Delegate at Glasgow, 1901, 140
"British Rainfall," continuance of the late Mr. Symons', 72
BRITTON, C. E., *Orchis maculata*, subspecies *ericetorum*, in Epping Forest, 123
Bures, variety of *Arion ater* near, 177

Canvey Island, Visit to and Insects in, 149
Centaurea solstitialis near Witham, 178
Chelmsford, Neolithic Implements from, 266
Chigwell, Additional Objects from Romano-British Settlement at, 238, 251
CHRISTY, MILLER, Exhibits curious form of Gerfalcon from Hatfield Forest, 50; Exhibits "rubbings" of Mines of Ash-bark beetle, 50; Bat flying by day, 67
Clacton, Neolithic Implements from, 266
CLARKE, F. C., Exhibits lamp (? Roman) from Woodford, 40
CLARK, PERCY, Notes on the Black-headed Gull in Essex in 1901, 120
Coast Erosion, Notes relating to, 221; Walton and Frinton in 1902, 217
Coast of Essex, Variations in numbers and the habitat of Marine Animals of, 17
Coins, Counterfeit Spanish Dollars found in Epping Forest, 259
Colchester, Meteorological Statistics at, 178
COLE, W., Exhibits Old English form of Pheasant from Loughton, 40; Exhibits variety of Brown Rat from Buckhurst Hill, 40; On deer antlers in Epping Forest, 46; Notice of late G. J. Symons, 57; Exhibits specimens illustrating Protective Resemblance in Insects, 154; Exhibits *Sphinx convolvuli* from Stratford, 154; Selenite in London Clay

in Roding Valley and Walthamstow, 154; Exhibits *Limenitis sibylla* from East Mersea, 154; Exhibits specimens illustrative of Mimicry, 156; Exhibits *Petricola pholadiformis*, 156; Report of Conference of East Anglian Natural History Societies at Dunmow, &c., 157: Scheme for Systematic Biological and Archæological Research in East Anglia, 159; Notes on Dug-out Boats in the marshes of Lea and Thames, 163; Notes on Cryptogamic Herbarium of the late E. G. Varenne, 167; *Petricola pholadiformis* in Essex and Kent, 168; Notice of late Edmund Durrant, 171; Notice of late Henry Walker, 173; Ancient Boat found in Lea Alluvium in 1830, 180; Notes relating to Coast Erosion in Essex and Suffolk, 221; Remarks on occurrence of rare fungi in Epping Forest, 252; Moves alteration of Rules, 258; Otters feeding on Mussels, 258

Colouring matters, vegetable, used in the Scotch Highlands, 45

Coming of Age of the Essex Field Club, Presidential Address, 1902, 73

Conference of East Anglian Natural History Societies at Dunmow, June 6th, 1901, 157

Connaught, Duke of, Resolution of condolence on death of Queen Victoria, sent to, 39, 42

COOKE, Dr. M. C., Notes on the larger Fungi observed at the Foray on October 12th, 1901, 127; A Fungoid Cucumber disease in Essex, 130; Notes on Fungi, Forestal, and others, 131; Acts as Referee at Fungus Foray, October 12th, 1901, 153

Corresponding Societies Committee of British Association, Report of Delegate at Glasgow, 1901, 140

Council Annual Report of, 1900, 32; 1901, 244

CROUCH, WALTER, Observations on Water-colour Drawings of Essex Churches, 43; Queen Elizabeth's Lodge and Epping Forest, 179

Cryptogamic Herbarium of late E. G. Varenne, 167

Cucumber Disease in Essex, 130

Cystopus lepigoni in Essex, 71

Cyclostoma elegans in the living state near Wormingford, 176

DALTON, W. H., Notice of Dr. Thresh's "Report on the Water-supply of Essex," 62; Walton and Frinton in 1902, 217; Presents specimens of Brackish-water Mollusca from Fowlness, 254; Conducts at visit to Walton Naze, 266

Deer Antlers seldom found in Epping Forest, 46

Drift of Thames Valley, Palæolithic Implements from 52

Dug-out Boat in alluvium of Lea Valley, 11 and Plate I., do., 151

Dug-out Boats in Ancient Marshes of the Lea and Thames, 163

Dunmow, Visit to, 157

Durrant, Edmund, Obituary Notice of, 171

Dyeing materials, vegetable, used in the Scotch Highlands, 45

DYMOND, T. S., Notes on Manganese Nodules in Boulder Clay in Essex, 139

Earthworks, ancient, damage done to, 253, 254

East Anglian Natural History Societies, Conference of, 157

Easton Church, Little, Visit to, 158

Easton Park, Oak and Hornbeam trees in, 159

Edwards, George, Memoir of, read, 255

ELLIOTT, F. W., Exhibits bone from forest, gnawed by a rodent, 46; Exhibits a Quern, 255

ELLIOTT, HAROLD, Capture of *Limenitis sibylla* at Mersea, 154

Eolithic Implements from the Plateau Gravel at Walderslade, Kent, 207; From near Rochester, presented to Museum, 259

Epping Forest, *Lathyrus macrorrhizus*, var. *tenuifolius*, from 46; Spiders of, 70 and 181; *Orchis maculata*, subspecies *ericetorum*, in, 123; Fungi notes on, 127 and 131; *Amanita citrina* in, 129; Thinning operations in, 148; Hydrachnida of (paper read), 156; Aphodii in, 177; Counterfeit Spanish Coins found in, 259; Oak-galls and Gall-insects of, 267

Epping Forest Museum and Queen Elizabeth's Lodge, 50

Epping Forest and Queen Elizabeth's Lodge, 179

Essex, Destructive Storm in 1841 in, 286

Essex Churches, Water-colour drawings of, exhibited, 43
Essex Field Club, Sketch of the work of, for past 21 years, 36; Coming of Age of the, a record of 21 years' scientific work, 73
Essex Field Club, Annual Report of Council for 1900, 32; Ordinary Meeting, January 26th, 1901, 39; Ordinary Meeting, February 23rd, 1901, 42; 21st Annual Meeting, March 30th, 1901, 48; Ordinary Meeting, do., 50; Field Meeting, April 13th, 1901, 147; Forest Ramble and Demonstration Meeting, May 18th, 1901, 147; Conference Meeting at Dunmow and Visit to Bigods, June 6th, 1901, 157; Visit to Canvey Island, June 15th, 1901, 149; Visit to East London Company's new Reservoirs at Walthamstow, June 29th, 1901, 150; Visit to Lady Warwick's School at Bigods, July 24th, 152; Annual Cryptogamic Meeting, October 12th, 1901, 153; Ordinary Meeting, October 26th, 1901, 154; Ordinary Meeting, December 14th, 1901, 155; Annual Report of Council for 1901, 244; Ordinary Meeting, January 25th, 1902, 250; Ordinary Meeting, February 22nd, 1902, 254; Ordinary Meeting, March 8th, 1902, 258; Ordinary Meeting, March 22nd, 1902, 260; 22nd Annual Meeting, March 22nd, 1902, 260; Spring Woodland Ramble, May 3rd, 1902, 261; Visit to Walton-Naze, June 7th, 1902, 265
Essex and Suffolk, Notes relating to Coast Erosion in, 221

FARMER, PROF. J. B., Conducts at Field Meeting on May 18th, 1901, 147
Fish in Essex Rivers, New records of, 70
Fish-hooks or Gorges of Wood from France, 28 and 41
Flint Implements, Models of mode of hafting, exhibited, 260
Forest Lodge in 1444, Anent a, 145
Fowlness, Brackish-water Mollusca from, 254
Frinton, Visit to, 266
Frinton and Walton in 1902, 217
Fungi, Reports on species observed in Epping Forest on October 12th, 1901, 127; Notes on Forestal and others, 131; Scientific Study of, by Prof. Marshall Ward (title only), 154
Fungoid Cucumber disease in Essex, 130
Fungus, Microscopic, *Cystopus lepigoni*, in Essex, 71

Galls and Gall-insects of Epping Forest, 41, 267
"Geology," "Elements of Agricultural" (review). 240
Geology, Coast Erosion in Walton and Frinton in 1902, 217; Notes relating to Coast Erosion in Essex and Suffolk, 221; Sections shewn at New Reservoirs in Lea Valley near Walthamstow, 224
Geological Notes on New Railway between Ilford and Woodford, 202
Geological Notes on New Reservoirs in the Valley of the Lea, near Walthamstow, 1
Ger-Falcon, Form of, shot at Hatfield Forest, 50
GOODYEAR, H., Meteorological Statistics at Colchester, 178
GOULD, I. CHALKLEY, A "Happy Family" of Batrachians, 69; Additional objects from the Romano-British Settlement at Chigwell, 238, 251; On damage done to Ancient Earthworks, 254; On Counterfeit Spanish Coins found in Epping Forest, 259; Recounts legend of St. Edmund at Greensted Church, 263
Grays, Palæolithic Implements from, 52
Greensted Church, Visit to, 263
Gulls, Black-headed, Nesting in Essex, 68; Notes on, in 1901, 120

Hafting Flint Implements, Exhibition of Models showing mode of, 260
"Happy Family" of Batrachians, 69
"Harlequin Fly," Prof. Miall's book on, 40
HARRISON, A., Exhibits specimens of *Sphinx convolvuli* from Stratford, 154
HARTING, J. E., "Handbook of British Birds," Notice of, 65; Presents specimens of Bearded Tit and collection of Mollusca, 255
HARWOOD, W. H., The Blister-beetle (*Lytta*) near Colchester, 177
Hatfield Forest, Form of Gerfalcon from, 50

HAWKINS, C. E. W., Black-headed Gulls nesting in Essex, 68
HESSE, E., New records of Fish in Essex Rivers, 70
HINTON, MARTIN, A. C., Contributions to the Pleistocene Geology of the Thames Valley, Pt. II. (*paper read*), 156; On some Teeth of *Rhinoceros* from Ilford, 231
HOLMES, T. V., Geological Notes in the New Reservoirs in the valley of the Lea, 1; Lake-dwelling in do., 15; Channels of the River Lea, 16; Obituary Notice of the late T. Hay Wilson, 60; Conducts at Meeting at the New Reservoirs, 150; Geological Notes on Railway between Ilford and Woodford, 202; Additional Notes on Sections at Walthamstow, 224; Review of "Agricultural Geology," 240; The Giant Beaver in the Thames Valley, 243; The matrix of the Suffolk Boulder-clay, 243; Exhibits Wooden Water-pipe, 250; On damage done to Ancient Earthworks, 253; Conducts at visit to Walton-Naze, 266; Notes on Mr. Woodward's paper on "Soils and Sub-soils of Norfolk," 288
Honorary Members, Election of, 261
Hope Museum, Oxford, Collections illustrating Mimicry in, 155
Hornbeam tree in Easton Park, 159
HOWARD, DAVID, Presidential Address, March 30th, 1901, 24; Remarks on Little Ilford Church, 43; Vote of thanks to, 49
HOWES, PROF. G. B., Address on Recent Work on Mollusca Morphology, 46
Hydrachnida (Water-mites) of Epping Forest (*paper read*), 156
Hylesinus, Ash-bark beetle, Mines of, 50

Ilford, Remarks on Palæolithic Implements from, 41; Palæolithic Implements from, 52; Manganese seam in Thames Valley Drift at, 135; On some teeth of *Rhinoceros* from, 231
Ilford, Little, Church of, 43
Ilford and Woodford, Geological Notes on New Railway between, 202
"Illustrations of British Fungi," Notes mainly corrigenda to, 131

JENNINGS, F. B., *Aphodii* in Epping Forest, 177
JOHNSON, J. P., Presents Palæolithic Implements from Ilford to Museum, 40; Palæolithic Implements from the low-level Drift of Thames Valley, 52; Neolithic Implements from the North Downs, 117; Manganiferous Seam in Thames Valley Drift at Ilford, 135; Eolithic Implements from Plateau Gravel round Walderslade, 207, 259

KENNARD, A. S., Contributions to Pleistocene Geology of the Thames Valley, Pt. II. (*paper read*), 156; On local Archæological Investigation, 254; Presents Eolithic Stones from near Rochester, 259

Lake Dwelling in Lea Marshes, 15
Lamna cornubica (Porbeagle Shark) near Tollesbury, 176
Lamp of Clay (? Roman) from Woodford, 40
Lathyrus macrorrhiza, var. *tenuifolius*, from Epping Forest, 46
Lea River, Channels of, 16; Ancient Boat found in deposits, about 1830, 180; Dug-out Boats found in Marshes of, 163
Lea Valley, Geological Notes on the New Reservoirs at, 1; Excavations in, visit to, 150; Relics from, 152; Sections shown in New Reservoirs in, 224
LEWIS, E. J., Oak Galls and Gall-insects of Epping Forest, 41, 267
Library Table, The, 62; 240
Limenitis sibylla from Mersea, 154
Lippmann's Colour Photograph exhibited, 50
LITTLER, H. W., Exhibits and presents to Museum old Hand-printing blocks, and Notes on, 43
LOVETT, EDWARD, Fish-hooks of Wood from France, 28 and 41
Lytta vesicatoria near Colchester, 177

MCCONNELL, PRIMROSE, "Agricultural Geology," review of, 240; Conducts at Meeting at Ongar Park Woods, 262
MAITLAND, REV. J. W., Presents specimen of "Old English" Pheasant to Museum, 40
Manganiferous Seam in the Thames Valley Drift at Ilford, 135; Nodules in the Boulder-clay of Essex, 137

Marine Animals, Variation in numbers and habitat on Coast of Essex, 17
Marshes, Ancient of the Lea and Thames, Dug-out boats in, 163
MASSEE, GEORGE, Notes on Micro-Fungi at the "Foray" on Oct. 12th, 1901, 128; *Amanita citrina*, a Fungus new to Britain, in Epping Forest, 129; Exhibits drawings of Micro-Fungi, 153; Presents coloured drawing of *Amanita citrina*, 251
MELDOLA, PROF. R., Proposes Resolution of Condolence on death of Queen Victoria, 39; On Miall's "Harlequin Fly," 40; Remarks on Palæolith Implement from Ilford, 41; Observations on survival of Ancient Customs, 41; Remarks on Lewis's paper on Oak Galls, 41; On Vegetable Colours used in Dyeing in Highlands, 45; Elected President, 49; Exhibits a Lippmann's Colour Photograph, 50; The Coming of Age of the Essex Field Club, Address, 73; Lecture on Mimetic Insects, 155; Speaks in support of Systematic Biological and Archæological Work in East Anglia, 159; On exhibition of Objects from Romano-British Settlement at Chigwell, 251; Exhibits flint flake from Sherringham, 251; Remarks on local Archæological Investigation, 252; Remarks on Prof. Poulton's lecture on Mimicry, 256; Thanks to, as President, 261
Mersea, East, *Luminitis sibylla* in, 154
Meteorology, Weather of 1900, 71; Statistics of Weather at Colchester, 178
Miall, Prof., Book on the "Harlequin Fly," 40
Micro-Fungi, observed at "Foray" on Oct. 12th, 1901, 128
Mimicry, Lecture on by Medola, 155; Lecture on by Poulton, 255
Mollusca, Recent work on Morphology of (address), 46; Harting's collection of Land and Fresh-water, presented, 255
MOTHERSOLE, H., Exhibits Neolithic Implement from Chelmsford, 266
Müllerian Theory of Mimicry, Remarks on, 257
MURIE, DR. JAMES, Conducts at Meeting in Canvey, June 15th 1901, 149
Mus hibernicus, 40
Mussels, River, as food of Otter, 258
Museum, Epping Forest, and Queen Elizabeth's Lodge, 50; Relics from Lea Valley, presented to, 152
Museum Notes, 167 and 238

Neolithic Implements from the North Downs near Sutton, 117
Norfolk, Soils and Sub-soils of, 288
Notes, Original and Selected, 67, 176, 243 and 286

Oak Galls and Gall-insects of Epping Forest, 41, 267
Oak tree in Easton Park, 159
Obituary Notices, 57 and 171
Officers and Council for 1901, 48; for 1902, 260
Ongar Park Woods, Visit to, 262
Orchis maculata, sub-species *ericetorum*, in Epping Forest, 123
Otters in Essex Salt-Marshes, 176; feeding on Swan Mussels, 258

Palæolithic Implements from Ilford, 41; from the low-level drift of Thames Valley, 52
Petricola pholadiformis in Essex and Kent, 168
Pheasant, "Old English" form, from Loughton, 40
Photograph, Natural Colour, Lippmann's, exhibited, 50; Sanger-Shepherd's process demonstrated, 50; specimens exhibited, 155
PICTON, H., Exhibits Neolithic Implement from Clacton, 266
Plants, Sea-side, 125
Plateau-Gravel around Walderslade, Eolithic Implements from the, 207
Plecotus auritus (Long-eared Bat) flying by day, 67
Pleistocene Geology of Thames Valley, Part II. *(paper read)*, 156
Pomatias elegans in a living state near Wormingford, 176
Porbeagle Shark near Tollesbury, 176
POULTON, PROF. E. B., Lecture on Protective Resemblance and Mimicry, 255
Presidential Addresses, March 30th, 1901, 24; March 22nd, 1902, 73 and 261
Printing-blocks, Hand, from old silk works at Waltham Abbey, 43
Protective Resemblance and Mimicry, 155, 255

Queen Elizabeth's Lodge, 50 and 179
Queen Victoria, Vote of Condolence on death of, 39 and 42
Quern exhibited, 255

"Rainfall, British," Note on continuance of the late Mr. Symons', 72
Rat, Black variety of Brown, from Buckhurst Hill, 40
READ, C. H., Remarks on Seton-Karr's Implements from Somaliland, 251; Address on Local Archæological Investigation, 252
READER, F. W., Exhibits models showing Modes of Hafting Flint Implements, 260
"Report on Water Supply of County of Essex," Notice of, 62
Rhinoceros, On some teeth of, from Ilford, 231
Rivers, Essex, New records of Fish in, 70
Romano-British Settlement at Chigwell, Objects from, 238 and 251
Rookwood, Lord, Vote of Condolence to Lady Rookwood, on death of, 250 and 255
ROPE, G. H., *Pomatias elegans*, in a living state near Wormingford, 176; variety of *Arion ater* near Bures, 177
RUDLER, F. W., Delegate's Report of Corresponding Societies Committee, British Association, 1901, 140, 259
Rules, alterations in, 258

Saint Edmund, Legend of, 263
Salt-marshes, Essex, Otters in, 176
Sanger-Shepherd's system of Colour Photography, Demonstration of, 50
Sea-side Plants, 125
Selenite in London Clay in Roding Valley, 154
SETON-KARR, H. W., Presents Stone Implements from Somaliland and elsewhere, 251
Shark, Small, seen in Brightlingsea Harbour, 166
SHARROCK, C. W., Conducts Meeting at New Reservoirs in Lea Valley, 150
Sherringham, Norfolk, Flint Flake from, 251
SMITH, F. P., Epping Forest Spiders, Note on, 70; the Spiders of Epping Forest, 181; Lecture on Spiders, 259
SOAR, C. D., The Water Mites (Hydrachnida) of Epping Forest (*paper read*), 156
Soils and Sub-soils of Norfolk, 288
Somaliland, Stone Implements of Palæolithic type from, 251
SORBY, DR. H. C., Variation in number and habitat of Marine Animals on Essex Coast, 17; Note on a small Shark seen in Brightlingsea Harbour, 166
SOUTHWELL, THOMAS, On systematic Biological Work in East Anglia, 160
Sphinx convolvuli at Stratford, 154
Spiders, Epping Forest, 70; Mr. Smith's paper on, 181
SPILLER, JOHN, Remarks on the West Ham Abbey Print Works, 44
Stone Implements of Palæolithic type from Somaliland, 251
Storm in Essex, in 1841, 286
Stratford, *Sphinx convolvuli* at, 154
Suffolk and Essex, Notes relating to Coast Erosion, 221
Suffolk, Boulder-clay, the matrix of, 243
SUTHERLAND, DUCHESS OF, Vegetable colouring matters used in dyeing in Scotch Highlands, 45
Sutton, Surrey, Eolithic Implements from the North Downs near, 117
Symons, C. J., Obituary notice and portrait of, 57

Tea Fund, 1901-2, 261
Temple Mills, Ancient Boat found in Lea deposits near, in 1830, 180
